

# Thanks for Stopping By

Thank you for visiting our booth at the virtual Midwinter Meeting! We cherish the opportunity to connect with all of you. This past year has been challenging for most of us. We appreciate that you used your time to come learn about GreenMark and LumiCare™ Caries Detection Rinse. Please note that access to GreenMark's virtual exhibit at the 2021 CDS Midwinter event remains open until March 15, and beyond that we are always available for any questions you may have about our technology and products (<https://greenmark.bio/contact-us/>).

Here at GreenMark, we have a vision to help change dentistry. By using our rinse, dentists will have the ability to accurately assess when to treat diseased enamel and make painless, natural repair possible. This ability represents a transformative change where practitioners can address caries as a preventable disease instead of as an inevitability. We hope that you join us on this journey.

We would have loved to see you in-person and hope to see you face-to-face at the next meeting. Best wishes to you and yours. Here's to a brighter tomorrow.
