

## Cariology Research Group

March 4<sup>th</sup>, 2016

Dear Dr. Nathan Jones,

It is with great pleasure that I am writing to inform you that the IADR Executive Committee of the Cariology Research Group has selected your research abstract/project (ID: 2465435) as one of the recipients of the **2016 IADR CARIOLOGY RESEARCH GROUP SCIENCE AWARD**.

The level of scholarly and scientific achievements in the field of Cariology of the research groups applying for this award was truly exceptional. You may therefore consider this an even greater honor for your group to be selected amongst such other strong groups of colleagues.

The Cariology Research Group Science Award consists of a certificate and a cash prize of U\$500. The award will be presented at the Cariology Research Group business meeting during the 2016 IADR General Session. Although the award will be given to the presenter, it is intended to recognize the research of the entire research team who contributed to the project being presented at the annual IADR scientific meeting. We hope you will attend our business meeting to receive the award. Please relay your willingness to accept this award at the 2016 meeting to either myself (mnascimento@dental.ufl.edu) or to our group's Secretary/Treasurer Dr. Jin Xiao (jin\_xiao@urmc.rochester.edu) so that we can make all the necessary arrangements.

### **Congratulations on being selected for this award!**

We wish you continued professional success in all your current and future endeavors.
